

## Casco C-Matt™ Positioning Wedges

Casco C-Matt™ Positioning Wedges provide therapeutic solutions to a wide variety of users, ranging from infants to the elderly, through a variety of products designed to fit the patient's needs.

*Casco C-Matt™ Positioning Wedges come in a variety of makes, models, shapes, and sizes to best accommodate both your facility's and patients' needs, coming in angles of 15, 20, 35, 45, and 55 degrees, all of which are made to support the head, hips, knees, spine, cervix, and more.*

*Casco C-Matt™ Positioning Wedges are made from a breathable, bi-directional stretch polyurethane fabric with a high density, antimicrobial, hypoallergenic medical grade foam core. Our Positioning Wedges are also durable, easy to clean, stain resistant, and RF-sealed to keep fluid from penetrating the product.*
